"LEO THE LION" COLLECTS WOODS

Leo J. Warren, IOWMC #1955, nicknamed Leo The Lion plus many other names achieved during his school teaching days once lived in a trailer in Mexico (1961) because he has been a collector of one thing or another all his life.

Experience in life has not been lacking for Leo as three hitches in CCC Camps (Civilian Conservation Corps) at (1) Tonto Basin, AZ. (2) Rogue River, OR. and (3) White Rock Lake Dallas, TX. followed by BS in education (1941) from Texas Tech and MS in Education (1949) also from Texas Tech. He worked during the war years at Lockheed - Vega Corp. Burbank, CA making Vega Venturas, P-38's, and later Boeing B-17's. He has been a school teacher for many years.

His wife Jo Ann puts up with his collecting of San Antonio and Texas woods, San Antonio tokens and medals, and a Mexican date collection which Leo started in 1961 and completed in 1978.

Many awards as a school administrator has been received and Leo has belonged to many civic and professional organizations. He is a present member of the Gateway Coin Club and the A.N.A. over 20 years.

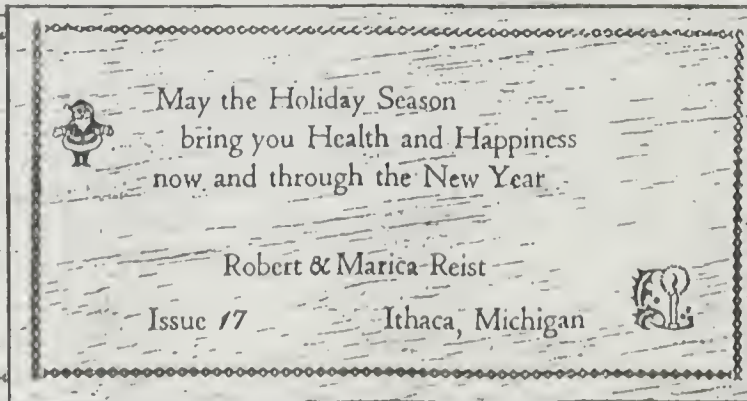

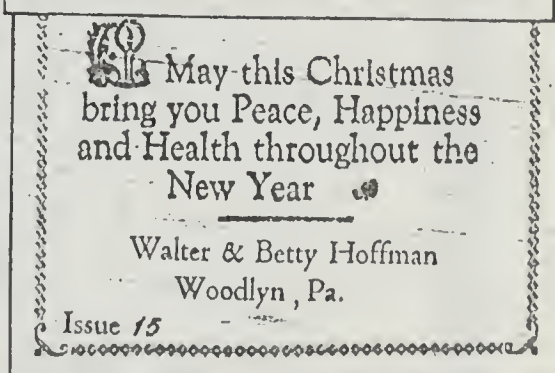

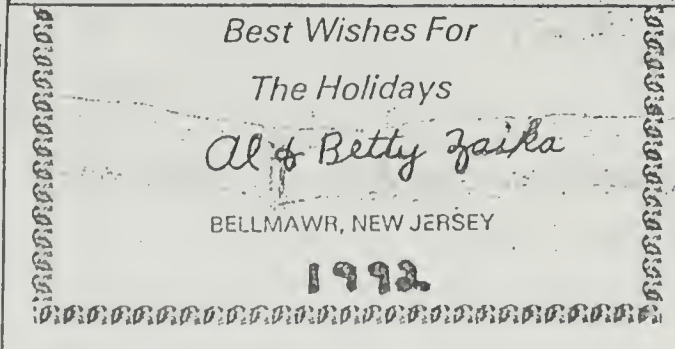

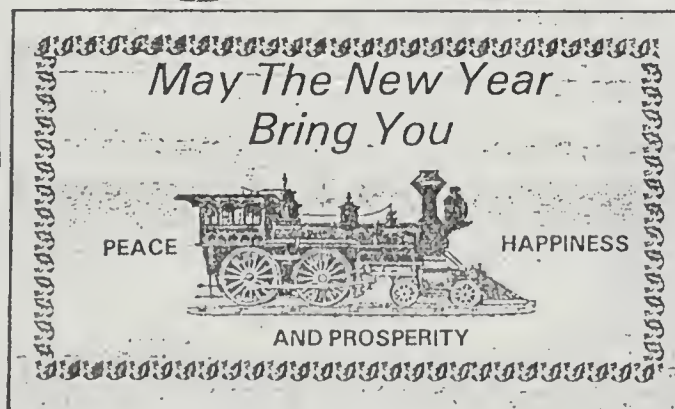

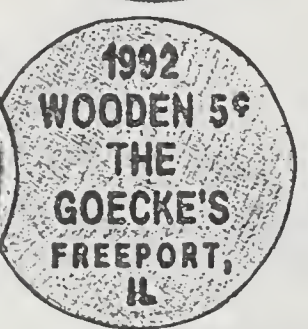

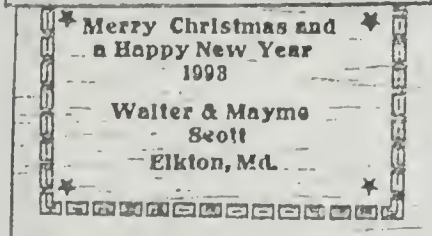

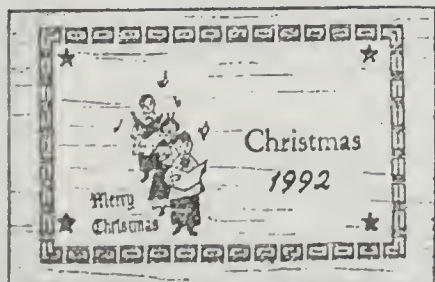

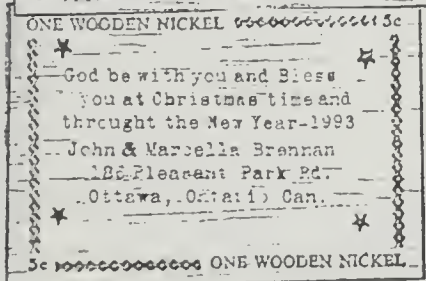

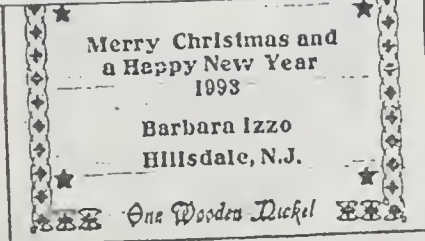

Leo's interest in woods lead him to meeting Louis Berkie owner of the Elbee Co., Fun'n Magic in San Antonio. Mr. Warren's guess is 50% of the woods struck during the period 1950 to date. Leo gives Berkie a lot of credit on obtaining many woods in his collection.

Another very very interesting member of The International Organization of Wooden Money Collector; OUR CLUB.

in the series

of
Hawaiian
Endangered
Wildlife

The continuing series of Hawaiian Endangered Wildlife (No. 11) features a native Hawaiian rain forest Honey-Creeper called 'Akohekohe. This native bird lives only on Maui, on the slopes of Haleakala.

A beautiful large dark bird with a bright orange color behind the neck, and other parts of the body, this Honey-Creeper is spotted with other intricate colors of white, grays and golden brownish yellow. The 'Akohekohe feeds on plants as well as insects and may be seen on native 'Ohi'a flowers

Christmas berries are shown on the reverse of the wooden token. Also known as the Brazilian Pepper, they grow wild in the Hawaiian forest. The berries are small and grow into a light yellowish-green color and into a bright red. A native of Brazil, these plant grow into small trees and are often found along the mountain side with other plants like Guava, Algaroba, Koa Haole and Lantana. During the Christmas holiday season, these plants can be seen woven into wreaths and leis

The wooden token will be sold at the Queen Kapiolani Hotel HSNA Show on November 12-15. To purchase the wooden token by mail, send 25¢ for each wood with a self-addressed stamp envelope to Honolulu Coin Club, P.O. Box 6063, Honolulu, Hawaii 96818.

HETTY GREEN

The infamous "Wizard of Wall Street" or "Witch of Wall Street" depending on your perspective. Betty Green was born in New Bedford, MA. in Nov. 1835, the daughter of Edward Mott Robinson and Abby Howland. Hetty was heiress to whaling fortunes on both sides of her family. Her Grandfather taught Hetty at age of six how to read and understand the financial page of newspaper. In 1864 Hetty's family moved to New York City, where she was regarded as the "belle of the ball." In 1867 she married Edward Henry Green, a silk merchant who was fifteen years her senior. Hetty dropped her husband along the way after an investment he made didn't work out and she was forced to cover for him--apparently an unpardonable sin in her eyes.

Hetty Green, who at one time was reputed to be the wealthiest woman in the world, made her fortune by lending and investing her inheritance, often without concern for scruples, over a period of fifty years. She jealously hoarded her wealth and received little pleasure from it. Her two children, Sylvia and Edward, were forced to living in a cheap, cold water flat and deprived of basic physical and medical needs. Edward lost a leg and was permanently crippled because his mother was too stingy to spend money on a doctor. Rather than take her son to a private doctor when she saw his leg needed treatment, she disguised herself as a beggar and took her son to a charity hospital for treatment. When the hospital discovered the fraud they were outraged and refused to treat Edward without an advanced payment. Hetty refused to pay, and the leg continued to get worse. When it was obvious that the leg would have to be amputated, Hetty had it done in a boardinghouse rather than a hospital in order to save money.

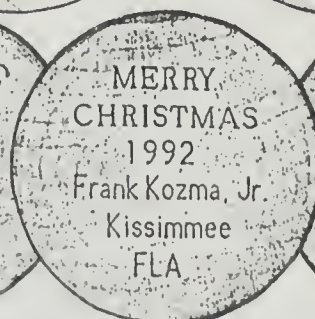

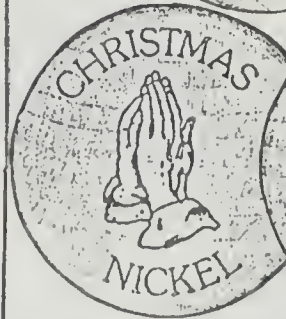

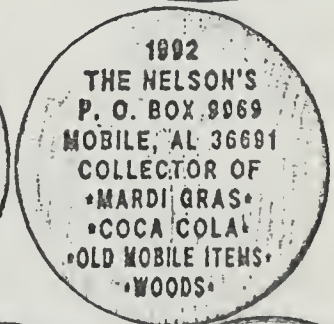

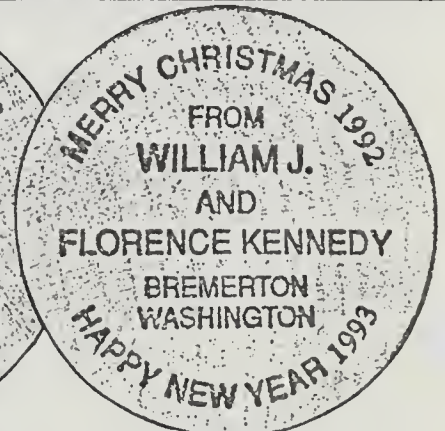

Hetty Green died at the age of eighty, leaving an estate worth \$100 million. Her two children died leaving no heirs, and after their deaths the fortune was dissipated.

COLORFUL AMUSEMENT

PARK WOODS

IOWA CITY, IOWA

In 1992, City Park Rides of Iowa City marked its 40th year. This family-owned amusement park, run by Lyle Drollinger, is located to the north of town next to the Ohio River. The rides include a ferris wheel, merry-go-round, tubes of fun, children's cars, and two children's airplane rides. The park is known throughout Iowa for its fun atmosphere and its inexpensive prices.

To celebrate the anniversary, a set of thirteen wooden nickels were printed. The obverse and reverse lettering are printed in black, except for "animal" letters centered on the reverse, which are red or blue. Each letter stands for a specific animal (C = Caterpillar, I = Iguana, T = Tiger, ect.) When the full set is assembled in order, it spells out "CITY PARK RIDES" in alternating red and blue letters.

A thousand unlettered wooden nickels were ordered, and the animal letters were hand stamped. Most of the nickels were given away last summer or will be given away this summer at the amusement park. Several individual nickels and full sets are available to collectors at the following prices:

1 Nickel (you may specify letter) -- 50¢ plus a SASE. A set of 13 Nickels and one unlettered nickel -- \$6.00 postpaid.

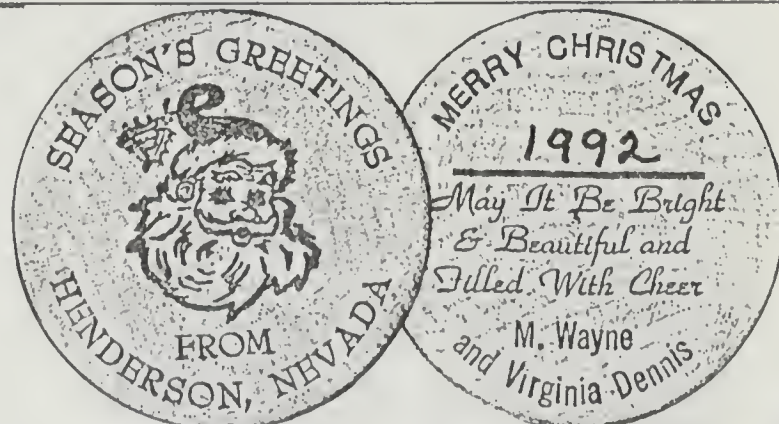

Order from: Dave Morice, Box 3382, Iowa City, IA 52244.

ISSUE # 2

MICKEY STARR - IOWMC # R 1952

Mickey Starr of Grants Pass, Oregon in addition to collecting about everything publishes three tabloids: (1) EXONUMIA MONTHLY, (2) FAST FOOD TOYS, (3) TOY & HOBBY MARKET.

The four page Exonumia Monthly is a tabloid for collectors and dealers of tokens, medals, wooden nickels, fobs, elongated coins, chips, scrip, checks, stocks, bonds, lottery tickets, credit cards, chauffeur, police and fire badges, political and Olympic pins. Starr's four page Fast Food Toys features ads for bottle caps, glasses, old soda pop memorabilia, McDonald's Christmas ornaments & toys, cereal boxes, etc. etc.. His eight page Toy & Hobby Market list ads for books, coins, comics, stamps, toys, non-sport cards, sport cards, publications, old stock and bond certificate, etc. etc..

These tabloids that list wanted and for sale articles aren't from just an area of the country but are all over the United States. These news letters look like a must for the exotic collectors; if I may call them that.

Although Mickey has over 1,000 woods his main interest in this field is the collection of information. He belongs to about every exonumia, fast food toys, and glass organizations that exist. He is quick to admit he will join about any organization he isn't already belonging too.

More information about these tabloids can be obtained by writing: Mickey Starr, 417 Burgess, Grants Pass, OR. 97526, another interesting member in our club.

WOODEN NICKLES

Once again as Chairperson of IOWMC Benefit Drawing, we are calling upon the membership to support this well worth project. As most of you know, the proceeds have helped to cover the cost of our organization, as well as, prevented any increase in our annual membership dues.

I am making appeals for contributions and material a few months earlier due to our schedule and other commitments. Your past cooperation and support has been appreciated and I know that you can be counted upon once again.

All inquiries and donations for the 1993 IOWMC FUND RAISING PROJECT should be sent to Virginia Dennis, 1852 Golden Shadow Drive, Henderson, Nevada 89015.

PENNY VAN'S MUSEUM BOUND; BELIEVE IT OR NOT
By: Kim Bradley-Staff Writer

George King has enough pennies to buy the thoughts of two and one-half million people.

With 48,773 of his pennies, the coin collector covered his 1962 Ford Van from bumper to bumper. That took six years, and he still has a lot of copper left over.

King, known as the Penny Van Man in North Carolina where he now lives, just sold his unusual vehicle to Ripley's Believe-It-Or-

Not. It has gone to Seoul, Korea then on to Tokyo, Japan for permanent display with more of the world's oddities. The van was last in St. Augustine, where King's son-in-law, Tom Ward, cleaned it up a bit. Since the project was completed in 1978, the copper had tarnished a dark brown. Now it shines like a strange scaly creature.

King, 63, began gluing pennies to the van while recovering from a back operation in Pompano Beach. He noticed the van was beginning to rust and needed a paint job, but he was confined to a wheel chair and couldn't get the van to a shop. So he just started sticking pennies to the spots. "I was sitting in a room full of pennies, it was the natural thing to do," he said from his home in Forest City, NC. "Plus, I needed to get rid of some of them."

The pennies added 321 pounds to the van. The interior dashboard contained all 1962 pennies. All the pennies are heads up but one. All are United States but one. On the rear of the van, toward the right, there's a Canadian penny. That's for his Canadian wife Ruby.

He met her at a drive-in in Deerfield Beach, FL. 15 years ago while in the midst of the penny project. He parked his van, with one completed side next to Ruby and her daughter. Talk about a conversation piece.

Since King's childhood, he's been fascinated with pennies - "the smallest, yet strongest" of the coins - and also with the man whose face covers the coin. King models his life after Abraham Lincoln. "He was the most honest person. That's the way I am," he said. "There's nothing on my mind that's negative." He's gone so far as to trim his beard like Lincoln's.

Over the years, dressed like Lincoln, King traveled in the Penny Van appearing at bank openings across the state. His hobby includes appraising coins for banks in North Carolina.

Selling the van was not a easy decision. He is going to miss it. So will the young residents of the small town between Asheville and Charlotte, NC. He's received 28 letters from elementary students at Rutherford County, NC. School pleading to him not to sell the van, but he says it's time. King says he's getting older and wants the world to see it.

"Discounting any monetary value, its been a lifetime of joy for me," he said.

Any one wishing to purchase a 2" wooden Penny Van issue and also a elongated cent, Please send \$1.00 total for both issues. To: Penny Van Man, P O Box 389, Forest City, NC. 28043.

EDITORS NOTE: Any member that sent my wife and I a holiday greeting and did not receive a returned wood, Please drop me a note and one will be sent including a stamp to replace one used. Also, Mayme asked that I include a thank you to ones that sent her a Get Well note or card wishing her recovery.

- Scotty -

Baltimore, Maryland hear we come. Scotty and I have made reservations at the motel we had in 1985 for \$29.00 plus tax, so look for the application and send in your reservation. We will have a large room for displays and get together at night to Swap, Sell, Learn, and maybe even argue a little over woods or our club.

Hopefully we will be able to have a caterer to serve us a dinner and a auction afterwards. Will have more information as soon as possible on the meeting date etc..

This is our election year, offices of President, 1st and 2nd Vice President, Secretary, Treasurer, and one Board of Governor is open for nominations of some member you may know of or even yourself. Don't be afraid to step forward. Send nominations and a short resume to Allen Nystrom, 10734 11th NW, Seattle, WA 98177-5208 or our Editor - address on cover.

When visiting with Scotty, he showed me several news paper items from local papers and the Associated Press interviewed him and it got a local good response and was put on the national wire service and in papers through-out the U.S. and Canada. This is the most publicity our hobby has gotten since the Tenino wood issue. I'm sure he will do a item in Chips at some later date on the response he has got from it all.

Received a report that Ruby Threlkeld is home and taking therapy as her right side is still paralyzed. She asked that a big "Thank You" be put in Chips to all the members that has written her and sent nice cards wishing her a complete recovery.

Abe Booke of Buffalo, NY. was hospitalized 7 times in 1992 and finally had a aortic heart valve replaced and is now feeling fine.

Hopefully all our members remain in the best of health and all their family members.

The 102nd ANA is being held July 28 - August 1st in Baltimore, MD. We do not have our set meeting date yet but you may make your reservation if you wish -- Westgate Motor Hotel, 6401 Baltimore National Pike, Catonsville, MD 21228-3996. Phone 410-744-1440 Fax 410-788-8460. Please tell them you are a IOWMC member so we can be located together.

SAFE MAILING of WOODS

By: AL ZAIKA C-24

In mailing round woods, place them in plastic flips or sections of 2X2 plastic pages, securing the open ends with staples or tape. Enclose the plastic holder between two pieces of stiff cardboard, securing the plastic to the cardboard so it don't slide around in the envelope and then tape the sides and ends of the cardboard. Oblong type should be enclosed in a plastic or paper envelope and placed between cardboard, using the above method.

Marking "Hand Cancel" on the envelope is no guarantee that the letter will be hand canceled. Postal clerks do not have time to examine each letter when feeding mail through the canceling machine. Since most damage to woods occurs in the canceling machine, avoid this and hand deliver your letter to the postal clerk and request that it be hand canceled. If your letter exceeds the standard thickness or dimensions, there is an extra fee of 10¢, otherwise there is no charge for this service. In our age of new automation one can never be sure the envelope may be submitted to another routing or coding station, yet the proper protection most likely will prevent damage.

To safe guard the woods from damage by the mail delivery person, mark your envelope "Please Do Not Bend Or Fold", in large letters. Don't ever tape woods with Scotch tape, this leaves a residue on the woods that can not be removed.

FOOD STAMP WOODS
by Norm Boughton

As those of you who have met me already know, i seldom find food I don't like, so it became natural to collect woods dealing with food. One of the sub sets I discovered that related to food was Food Stamp Tokens. My purpose in listing what I have is to get you to look for what you have and tell me so I can add to the list and start hunting for them.

Although I believe all that are listed here are from the state of Texas, I can not prove it. Got some information, please share it.

WOOD COLLECTING GIVEN BOOST

By: Walter A. Scott

Wooden Money and Token collecting mostly known of by words being issued, word of mouth, displays put out by members in libraries, places of business, numismatic and local publications. The first time that received a big response was when Chrysler Newark, DE. gave a ok to issue a wood that wasn't to be sold. It was published in the Philadelphia Bulletin news paper for a swap and a lot of people responded by sending various items as many stated they never seen a wood.

In 1992 our local paper reporter "The Cecil Whig" requested a interview, and run a item. Later the News Journal, a Wilmington, Delaware paper covering our area, called for a interview, this brought another request from The Cecil Whig, and they made a very impressive set-up in their July 1, 92 issue which caught the eye of a Associated Press writer for a interview. She arrived a little late and covered quite a bit, including showing her a short segment of a video tape of the original wooden money being issued in Tenino, WA. and some wood items for her to look over as had a Dr. appointment to make. Then the photographer Carlos Osorio from near WA.DC. came up and spent nearly 2 hours being very impressed and may join our club.

The item was published in local area papers, and received a call to report it would be put on the national wire as received favorable interest. Then received a call from Channel 13 TV station asking to make a video for their station. This was shown several times yet was edited so short it made little sense even to us, but hope to get a copy of the full interview from them. A request was made to try to get them to cover the Baltimore wood exhibit, and talk to other collectors.

We have received phone calls and many letters some containing woods, a couple wanted item autographed, some wishing to join our hobby, and some wanting to sell some they have. Hopefully all the woods will be shown in later Chips as may help identify a few of the maderics, also a few are most likely official issues.

A error in the item of a Sambo selling for \$18.00 got a big response actually stated \$1.30 and 18 years in hobby, but actually special Sambo's have brought higher prices. It brings back a statement the late Stan Brown used to always say "You Asked For It" as will take me months to answer all the correspondence as it all makes one feel good hearing from so many generous people.

Many articles can be written on this venture, but its never been my habit to enter my material in Chips as it belongs to all of our members. At present lack Portraits so some of you asked for it.

MAIL BID DONATIONS

AS I HAVE BEEN DOING THE MAIL BID OVER THE PAST YEARS I HAVE HAD THE PLEASURE OF DEALING WITH MANY VERY GENEROUS MEN AND WOMEN WHO ARE MEMBERS OF IOWMC. WE HAVE RECEIVED MANY DONATIONS FROM OUR MEMBERS WHICH ARE TOO NUMEROUS TO TRY TO LIST. I DO WISH TO SINGLE OUT ONE MEMBER WHO MADE A VERY SUBSTANTIAL DONATION. THAT MEMBER IS WILLIAM CARR. BILL SENT ME TWO BOXES OF WOOD LAST YEAR THAT CONTAINED BOTH WOODS FOR CONSIGNMENT AND OTHERS AS A DONATION. THE WOOD BILL CONSIGNED BROUGHT THE CLUB \$75.00 AND HIS DONATED WOOD BOOSTED THE CLUB TREASURY BY OVER \$200.00. MANY THANKS TO BILL AND ALL THE OTHERS WHO HAVE HELPED TO KEEP THE COST OF DUES DOWN FOR ALL OF US.

*** PRESIDENTS MESSAGE***

The past couple of months has been rather slow and little new to report. When watching the news it seems Mother Nature is giving many of our members all over a rough time and hope-fully nothing major to any of you.

Two of the Canadian Wood Clubs have gatherings scheduled and hope their attendance is good - Note information in this issue.

We have not received a conformation on the date and time of our annual meeting to be held during the Baltimore, MD. July 28th to August 1st it will be published as soon as it is obtained from the A.N.A.

Have not received any reports of any members with health problems, but we do have quite a few recuperating, and wish them all a speedy recovery, and that many of you will be in great shape in time for our get to-gather. Once more the collection of the late King of Wooden Money, CLarence Kramer's will be on display at the ANA.

You will find a item, envelope and tickets with this issue for our annual donation raffle which over the years helps the club not to have to increase dues. Again this year it is chaired by Virginia Dennis which does a great job, along with many members help of making donations of items and obtaining tickets.

Denver Howard, 6440 Fairfield Apt. 305, Ft. Wayne, IN 46807-3667, and our Editor, reports "Portraits" needed for Chips, Endeavor to send in yours.

Good Luck & Good Pickens, E. Ted Wolverton - Pres.

1993 - IOWMC BENEFIT DRAWING

Enclosed you will find tickets for the benefit drawing. Tickets are only 50¢ each. Please purchase them all. Don't forget to write your name and address on the stubs. Return, along with money, to the Chairperson in the enclosed envelope.

Additional tickets are available. I will be glad to fill them out for you; or better yet, send your personal address labels. The more tickets you purchase, the more successful this project will be.

Material is still needed for this project, as I have no backlog left as it was all used for last year project. As a suggestion, if you have no duplicate woods to send, a donation to cover a one year's free dues makes a wonderful prize. Please send what you can and as soon possible so I can start pre-packing the door prizes.

All inquiries and donations should be sent to Virginia Dennis, 1952 Golden Shadow Drive, Henderson, Nevada 89015.

SHARLOT HALL

Sharlot Hall was an unusual woman for her time--a literate child of the frontier. Born in 1870, she traveled with her family from Kansas to the Arizona Territory in 1882. The impressions of that journey and a fascination with the frontier remained with her all her life. Largely self-educated she loved ideas and the written arts and expressed her fascination with Arizona frontier life through prose and poetry on such subjects as the Indians, miners, ranchers and politicians of early Arizona.

As early as 1907, she planned to develop a museum for her collections of Native American and pioneer Arizona material. Finally, on June 20, 1927, she signed a contract to house these artifacts in Arizona's 1864 Governor's Mansion in Prescott and to operate it as a public museum. She moved her collection there in 1929 after the death of her parents freed her to pursue her dream and began restoration of the building at her own expense. It was not her intention to make a museum in the ordinary sense, but rather to gather and preserve everything which had been made or used by the white settlers of Arizona. In addition, she also developed beautiful vines, flowers, trees and shrubs on the surrounding grounds, many of them from cuttings with a history leading back to the state's early pioneers. For the rest of her life, she worked to preserve the old log building and to save Arizona's historic past. In 1934, Federal unemployment relief programs funded construction of a rock-walled museum building which she called "The House of a Thousand Hands" because of the many workmen of varying skills who earned badly needed paychecks through working on the project. After her death on April 9, 1943, the museum was officially named for her. Today, the Sharlot Hall Museum Complex consists of ten buildings, two gardens, a windmill, and a locomotive.

However, Sharlot Hall did more than establish a museum. In 1906, she became active in the crusade against the congressional measure which would have brought Arizona and New Mexico into the Union as one state. She toured Arizona, gathering opposition to the bill, and wrote a 64 page article in Old West magazine praising Arizona's resources. Her epic poem, "Arizona," describing why Arizona deserved separate statehood, was placed on the desks of each congressman. The measure was defeated, perhaps due in part to her efforts.

She served as Arizona's territorial historian from Sept. 1909, until statehood was achieved on Feb. 14, 1912, and was the first woman to hold salaried public office in the territory. During her tenure, she visited prehistoric ruins and Indian reservations, and collected pioneer material throughout Arizona. In July 1910, she began her longest expedition: a ten week wagon trip across the wild and remote Arizona Strip north of the Grand Canyon.

When Calvin Coolidge won the presidential election in 1925, Sharlot Hall was the elector chosen to deliver Arizona's three electoral votes to Washington. For the trip, the Arizona Industrial Congress commissioned an overdress of copper links which she wore to the inauguration. Later, she often wore that unusual garment with its copper accessories and a cactus hat as she lectured about Arizona and its resources. That overdress and hat have been preserved to this day and are on display in the museum in Prescott.

These Wooden Dollars can be obtained for 25 cents each plus a self-addressed, stamped-envelope (52¢ postage for 3 or 4 woods) from: Sandra Wolf, P O Box 233, Dewey, AZ 86327 Phone # (602) 772-7144.

One day when you're on the New Bedford, MA. waterfront, take a look across the Acushnet River at Fairhaven. The distinctive skyline you see is mainly the legacy of Henry Huttleston Rodgers.

At the eastern end of the New Bedford-Fairhaven bridge rises the copper clock tower of Fairhaven High School, Rodgers' last gift. Clustered further south in the center of the town are the clock tower of the Town Hall, the turrets of the Millicent Library, and the spire of the Rogers Grammar School. Presiding over all, the majestic bell tower of the Unitarian Memorial Church pierces the sky.

The wood printed in blue is available for 25¢ each plus a SASE. From: C.C. Gtr. N.B., P O Box 2991, New Bedford, MA 02741-3837

The Event That Never Happened

On the evening television news of 13 June 1990 viewers were shown the birth of Omar, the first Asian elephant born at the San Diego Wild Animal Park. Omar was immediately rejected by his mother who tried to bite, kick and stomp him. Repeated attempts to get his mother to nurse him failed and he was separated from his mother. His care and feeding was provided by park personnel. Lacking nursing by his mother he developed several ailments, from chronic diarrhea and infections to a condition similar to rickets that results in softened bones.

Television and newspaper reports of Omar's progress were frequent. When the San Diego County Inter-Club Numismatic Council held its competition for our annual Coinarama medal my design, (illustrated) celebrating Omar's first birthday, was selected. Medals were struck in silver, golden bronze, and antique bronze as well as the wooden money.

In late March 1991 Omar's condition took a turn for the worse. Earlier fractures to both front legs had been on the mend when a new fracture of the right leg was detected and Omar was unable to stand. Because he was unable to get up, it was feared that fluid would build up in his lungs. Keepers rolled Omar from side to side every three hours through the night of March 23 but by morning it was determined that Omar should be put down to end his suffering. A lethal dose of phenobarbital was administered and Omar was pronounced dead at 9:30 am, March 24, 1991.

It was decided that the medals and woods would be issued even though the main theme **Omar's First Birthday** commemorated an event that never happened. The medal sets were rapidly sold out to the many elephant collectors. An active secondary market exists on the Omar medals.

EFFORTS TO HELP OUR HOBBY

By: Walter A. Scott

We all over the years have gripped about the Postal Service, for once they deserve a big Thank You. When the Associated Press, item on our collection of wood was published in papers through out the U.S. and Canada, no information other than our name, town and state was published. This gave well over 100 readers that wished to respond, how to contact us, very little to go on. The post offices could supply a zip code but still not the street address. Many were sent in various ways, to Postmaster, Chamber of Commerce, etc. At present only one known of was returned to the sender, that made another attempt to see we got it. The most surprising was sent from Alaska, the lady ran a copy of the item, wrote on the side, Please Postmaster add the address and paper clipped it to a stamped envelope with only my name on it and a note inclosed. Believe it or not, when received it was the same, in perfect shape, looked as perfect as if it was never touched and the stamp was not even cancelled.

Another rarity was that despite few of the woods sent, most all not properly protected only 4 out of over 100 were broken. The most damaged was a 12" X 15" envelope sent from the Northern Daily News, Kirkland Lake, Canada. It was torn in several places and the full end was re-taped with scotch tape, yet the contents seemed complete, 2 pens, 5 woods, news paper and a fizzle. It still leaves one to wonder how many that were rejected, as it is a known fact that several areas are very poor as NY. and DE. Only 1 note was received from NY. none from DE.

It was a guessing game for ones that called, because our son has the same name as mine, so some had to make an extra call to get through to us, the phone system has little personality. It is always nice to chat with others, but their cost can run up fast.

Along with the woods and information requested by others found it a very warming experience as many seniors that only had one or a few woods wanted to find a home for them. Several stated they were in their 70's and 80's, lost their loved ones or other family members, that were instrumental in obtaining the issues, and wrote about their family, hobbies etc. Only a couple were collectors of the past. Most all expressed their surprise to learn wood collecting was actually a hobby by people. A Canada Radio Station called and asked if I'd do a talk session the next day, explained I would but suggested it would be nicer if they got a Canadian Wood collector and gave them a couple of our Canada members information, the caller did not realize it was an active hobby in their country. To date do not know which one may have accepted the interview. Another call was from the late Scoop Lewry's neighbor, Scoop was a very active, outstanding man, a promoter of many woods, tokens, and National Coin Week, a member of IOWMC and numerous other clubs. Although Scoop attended several of our meetings, a very large packet was sent that included a Moose Jaw paper containing the A/P item, brochures on the town, numerous clippings on all of Scoop's activities, ventures and obituaries carried in the area papers. There was a request that will be published in a later issue of Chips.

Having a one track mind I'd have to re-read all the notes to find items that our members may enjoy reading. A few did remain remembered. A "Fish Tail", a letter was received from a MD. State Councilor of the Daughters of America, from Baltimore, she wrote they were shocked when they received a plastic bag of fish wrapped in news paper sent by air from a friend in Alaska. When opened they, as I often do read the paper and see the article and picture of me in it. Couldn't resist to call

to see if it had spoiled the fish. They said it tasted great ???. Another note and wood sent by a couple in their 70's, ended the note, if I'd seen ★s" as when unfolding the note over 50 stars fell out, and still picking them up with the help of the Grt. Grand-Children's help. Another note received from a member reported the item put him on a spot as one of the pictures used showed his Xmas issue on top of an open book of woods, it was posted on his church bulletin board and was mentioned in the service, a lot of the congregation wanted one of them, and some asked how he'd pulled off getting it shown. He only had a few woods left, so some disappointed.

After two months still getting a few calls and notes. It was the most publicity ever received, and still many request to be answered. Al Bonesio was mentioned in some of the papers and is also receiving some response from it. Left to publish is all the different headlines that the papers used, they say live and learn as it was never realized that an item used was edited differently by papers. Also different pictures and a few were in color. Hope to have all the woods and clippings set up so that ones attending our meeting can look over them.

The local Senior Center has requested that I join them for lunch and give a talk on wood money. This will only make the third time being a speaker and always wonder what said afterward.

Surely some of YOU have a story about wood, Bunyan's Chips is your paper. If even written items are sent, I'll try to edit and set up so others can enjoy reading it. It does have to pertain to woods or wood related stories. Also hope to receive some portraits for our cover.

Sorry Chips is being sent out so late, every month regret it and may end up with less pages.

*** PRESIDENTS MESSAGE ***

To all those whom are having problems we hope they will all disappear so you may be able to make our 29th Annual meeting in Baltimore, Maryland.

We have the same place that we had to stay at as the last time our meeting was held in Baltimore, MD. You can make arrangements by calling 410-744-1440 or by writing to the Westgate Motor Hotel, 6401 Baltimore National Pike Catonsville, MD. 21228-3996, and tell them you want IOWMC's rate at \$29.00 plus tax. We need about 25 rooms to retain this rate, so tell others also.

Our annual Board Meeting will be held on Saturday, July 31st at 9:00 AM and our General Meeting at 9:30 AM.

We are planning a dinner on Friday evening to be followed by the auction. This will give us more social time to get to know each other better at the general meeting.

Send articles to Virginia Dennis for the auction and raffle this helps us to keep our dues at the same rate.

We need more candidates for offices of Pres., 1st V. P., 2nd V.P., Secretary, Treasurer and one Board of Governor. Time is short and appears our election may have to be held at our General Meeting. At present we do have enough to fill all openings, but perhaps you or another member you know may like to hold a office. Write soon to Al Nystrom, 10734 11th NW, Seattle, WA. 98177-5208 or to our Editor. The election will be held in accordance to the Roberts Rules. It is your club, why not help run it.

Regret receiving a report that Ruth McPheeters IOWMC # 544 has passed away from her niece, Kathleen Wold.

Thanks Goes To: Clifford Mishler, President of Krause Publications, (Numismatic News, etc.) for sending two different Krause Publication, woods to send to all our members.

Good Luck, Good Pickins - E. Ted Wolverton, President

DUES were late as of March 31st and many members have yet to send their dues. Soon the report has to be sent to the Editor that he will know the ones not to send Bunyan's Chips out to, but hopefully dues will be recieved that you will recieve the next issue.

Please Check to see if your 1993 membership card is on hand and if not, send in your payment **NOW**. I wish to thank all the members who paid their dues and were kind enough to include postage, SASE's and/or cash donations in their payments. Notice of such will be posted in a later issue of Chips.

The winner of the free woods and wooden nickel buying guide was R-755 Mr. John Belles Jr. who sent in the number of 42 which was off by two, the selected number was 44. Again, let's mail out the late dues, I enjoy adding new members to our ranks, but sure dislike seeing any of them leave.

Respectfully,
Robbin A. Quinn, Sect. IOWMC.

Missed in the last item identifying woods because of no town, city, state, year issued, or a value, was Good For's which state a homey touch, such as GF-a friendly visit, meal, phone call, etc. It is nice if a GF shows a cup, or phone, glass or what ever its Good For. Many collectors choose a category to collect.

Catalog of Canadian Woods of Canada's ten provinces and two territories was published in January 1992 by Norman Belsten IOWMC # 1283 It list 640 from Alberta, 546 British Columbia, 130 Manitoba, 112 Nova Scotia, 29 Prince Edward Island, 12 New Foundland and Labrador, 10 Yukon and 8 North West Territories. Collectors of wooden money find riches in a nearly worthless hobby

By THERESA HUMPHREY

The Associated Press

ELKTON, Md. — Walter and Mayme Scott don't buy the old maxim, "Don't take any wooden nickels." In fact, they'll take all the wooden nickels they can get.

The Scotts — she's 60, he's 67 and a retired auto-worker — own a small fortune in the bogus currency. Walter Scott estimates he's got about 25,000 wooden nickels. They're kept in some 50 loose-leaf binders, each book bulging with 25 to 30 pages of coin-filled plastic pockets.

There's enough, Scott jokingly guesses, "to float a battleship."

The Scotts, who live in this small town in north-eastern Maryland's Cecil County, found their hobby doing another collector a favor. In 1974, a friend asked Scott to deliver the man's special wooden nickel collection to an exhibit in Shippensburg, Pa.

Soon Scott had his own 273-piece collection commemorating the county's 300th anniversary.

Now the Scotts own buckets of wooden nickels issued by chain restaurants including McDonald's, Dairy Queen and Hardee's. Some were worth real money like the one that reads: "Good for 25 cents with next purchase at any White Coffee Pot Jr.," a Baltimore fast-food chain.

They own handfuls of Canadian spruce dollars — relatively rare oversized wooden nickels made from spruce trees that fetch \$5 and more on the collectors' market.

Their riches also include wooden nickels from the now-defunct Sambo's restaurant chain, which mulched nickels left over when it out of business. Collectors have paid up to

\$18 for those hard-to-find Sambo's nickels.

The Scotts, who also collect wooden Christmas cards and wooden postcards, say their collection is virtually worthless. But they add that a wooden nickel without monetary value printed on it isn't worth, well, a wooden nickel.

"It has to have a monetary value (printed on it) or it's not a wooden nickel," Scott said. "It's a wooden token."

And they know their wood coinage.

Both Scotts are past

presidents of the International Organization of Wooden Money Collectors, founded in 1964. Scott is also in his 10th year as editor of the club's official newsletter, Bunyan's Chips.

The newsletter goes to about 350 of the club's 375 members, Scott said, including two in Puerto Rico and a couple of servicemen in Germany.

Based on the fluctuating membership, Scott estimates at least 2,000 people in America collect wooden nickels.

Taking dollars for wooden nickels

By PATTI B. SINGER
STAFF WRITER

People are always telling shop owner Norm Boughton not to take any wooden nickels as he's grabbing them with both hands.

Boughton, who owns Chili Coin, Stamp and Supply Ltd., has just published his second catalog of all the wood money issued by any municipality in New York.

"No one thinks they have any value," says Boughton, who recently finished *Flat*

Wooden Money of New York State, the companion piece to the updated *Round Wooden Money of New York State*. "The idea

was most people wouldn't turn them in. They would raise money to defray the cost of the celebration. And if you had it in your pocket, you knew something was happening in town."

Boughton has spent 25 years collecting the pieces.

Sometimes the money was worth the timber it was printed on. Boughton, whose hobby has turned him into a bit of a local historian, says that the nickels issued by Riga for its sesquicentennial in 1959 could be redeemed by merchants and at the bank in town.

Boughton says wood money originated in a town called Tenino, Wash., in 1932, to tide the residents over after the bank failed. More recently, wood money has been used to commemorate special events. Boughton says the

towns of Mendon, Henrietta, Penfield, Gates, Fairport and Hamlin have issued wooden nickels as part of their anniversary celebrations.

Round Wooden Money of New York State is available for \$5

and *Flat Wooden Money of New York State* for \$3 (ordering both books at once costs \$7). To order, write: Norm Boughton, 1356 Buffalo Road, Rochester, N.Y. 14624. □

PRESIDENTS MESSAGE

How time flies when one wishes to promote a nice gathering at our Annual 1993 meeting at Baltimore, Maryland. The past few Chips have given the information on the Westgate Motor Lodge where some of us stayed the last time the ANA was held in Baltimore and a luncheon, and auction was held giving us a lot more time to chat and get to know each other better aside from the hassle and bustle at the main convention center.

In order to have a dinner, its a must that some figure be obtained, as to see if it is feasible to have it. **PLEASE** drop me a line **ASAP**. Ted Wolverton, P O Box 501, Stroudsburg, PA 18360-0501. A recent check on the Westgate Motor lodge reported quite a few have already registered, but we hope many more also send in theirs. The cost of the dinner to be held on Friday evening will be 15.00 per person. **So** let me know soon.

The good news is that Ruby Threlkeld is doing fairly well and has written a few short notes, but still likes to hear from members. Word was also received Toni Cichy had her knee operated on and is able to get around rather well. We all hope that all our members and their family stay well and enjoy summer.

A report from our raffle chairlady Virginia Dennis reports there is lot's of good prizes to be given out, so hope you have sent in your tickets. Regret that word was received of the lost of two of our members. Ruth McPheeters # 544 of Stocton, CA. and Victor Rich # 1537 of Massillion, OH. Our deepest Sympathy to their family, they will be missed.

E. Ted Wolverton, President I O W M C

DEAR CLUB MEMBERS

Most of you know I am a collector of MARDI GRAS coins as well as woods. We here in the Mardi Gras captail of Mobile, AL. call these DOUBLOONS. The word goes back to 1711 when the French ruled this part of the country. Recently I was going through a box of woods and coins sent to me by a collector friend from New Orleans. I run across this aluminum Wooden Niclel, green in color, 1960 date, and from the organization of "The Krewe of Grela".

Thought you Wood Chucks would like to see it... no, I do not have any extras. You may try - Jerry Ledit who runs Bayou Coins and Medals. He makes up woods for some of you during Christmas time.

Art that makes cents

Christline A. Winner
The Press-Citizen

A penny for your thoughts, a nickel for your doodles.

A person's scribbles lend some insight into the psyche. And for the past six and a half years, local writer and artist Dave Morice has been sending and collecting wooden nickels that have been signed, painted, drawn and doodled on by a variety of celebrities.

Since Morice's Wooden Nickel Art Project was last exhibited, he has received about 200 more nickels from people such as actor Robert De Niro, director Spike Lee, comedians Jim Belushi and Carol Burnett, singer Tom Jones and Bob Denver of *Gilligan's Island* fame. Selected nickels from the project will be on display through the end of the month at the Coralville Public Library.

Morice was inspired to create the project on a September evening in 1985.

As he sat on the couch watching *M*A*S*H*, he idly carved a woman's face on the side of a wooden nickel.

He liked the result, and started thinking about designing and drawing and decorating wooden nickels.

"But one can do only so many of them," he says. "I thought 'Why not get other people to do them?' It's the ideal project, creating an art project in which everyone else does the work for you."

In the best Tom Sawyer tradition, Morice did just that. He ordered some wooden nickels and started handing them out to friends, relatives and strangers.

That was about 1,600 nickels ago.

Since then, Morice has done mass mailings to movie stars and world leaders, poets, authors and sports celebrities. He requests they write or draw anything they want on one side, and sign and date the other side. About half of the nickels have reached the proper address, and of those, about half have made their way back to Morice's mailbox. He says the nickels provide a personal glimpse into these public lives.

"It makes them seem human instead of these two-dimensional flickering images," he says. "You get things like Caspar Weinberger writing 'I can't draw on this.'"

Some of his favorites include an imp drawn by film director Federico Fellini, a sketch of Kermit the Frog by Jim Henson and the Cat in the Hat by Dr. Seuss, Theodor Geisel.

Probably the most memorable response came from Vacaville, Calif. Morice couldn't decipher the return address, and later realized it was covered with a swastika.

There was no nickel in the envelope but it contained a couple of strange drawings from Charles Manson.

Although the project is an enjoyable pursuit, Morice considers it an art project rather than a hobby. He gives credit to artists such as Ray Johnson, who viewed correspondence as art, and Andy Warhol and Claes Oldenburg, who would assemble a collection of objects as a work of art. It's a democratic art form, with the collection including a range of nickels from President Bush to Morice's bus driver.

So if anyone offers you a wooden nickel, ignore your mother's advice and take it, especially if it's from Dave Morice.

Del was born on July 10, 1933 in Northwest Iowa but was raised in Rockford, IL. where he graduated from West Senior High School in 1951. He went to work for Sundstrand Machine and Tool Company where he became interested in coin collecting by the urging of a fellow worker.

He became a resident of State of Washington, compliments of Uncle Sam and the Air Force, after discharge and moving to Seattle. He went to work for The Boeing Company as an Experimental Electronics Technician. He retired in 1991 after 34 years with the Nuclear Physics Department & Radiation Effects Laboratory.

Del is a avid collector of Merchant Tokens of Washington. He specializes in the Seattle "Good Fors" and also collects "Pastime" tokens of Washington and Oregon. He became a member of IOWMC in 1983 at the San Diego Convention and was sponsored by Allen Nystrom. Del collects all Washington, Oregon and some Alaska wooden money. He is a contributor to Robert Leberman's book, "Picture Guide Book to the State of Washington". Author of the Northwest Tokens and the listing of "Washington State Encased Cents". He is presently cataloging the Merchant Tokens of Seattle.

Presently, Del is President of the University Coin Club, Treasurer of Northwest Tokens and Medal Society, Auctioneer for NWTAMS and the current Editor of the NOR'-WESTER, which is the quarterly newsletter of the Pacific Northwest Numismatic Assoc. He is past President of the Seattle Coin Club, the PNNA, and as Vice-President of the Boeing Employees' Coin Club. During the 1990 American Numismatic Associations convention in Seattle, Del served as the Assistant General Show Chairman.

In addition to IOWMC, he is a member of Dedicated Wooden Money Collectors. Token and Medal Society, The Elongated Collectors, and American Vecturist Association. Regionally he is a member of the Pacific Northwest Numismatic Association, University Coin Club, Seattle Coin Club, The Boeing Employees' Coin Club, Northwest Tokens and Medals Society, and North Shore Numismatic Society of Northwest Vancouver, British Columbia.

Mary and Del both pursue gardening, fishing and traveling as additional hobbies.

The friendly seagull, in its various species, is one of the area's commonest birds. They're scavengers and will make a meal out of about anything from dead fish to garbage dumps. Their tendency to cannibalize eggs and chicks makes them frequent pest in the ornithological community. Frank Graham Jr. author of Gulls, a Social History, says of them: "It is this capacity to utilize whatever is in the landscape that has allowed gulls, like the brown rat and the German cockroach, to spread and thrive." And spread they have: Herring gulls can be found all over North America, including Mexico. Ring-bills inhabit the same area, avoiding only northern Canada. They inhabit the seashore, lakes, marshes -- anywhere they can get water and food.

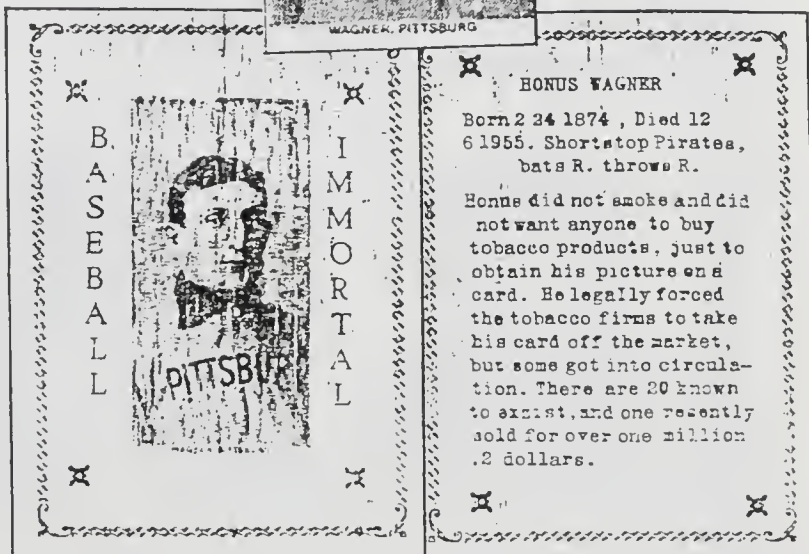

The June 6, 1993 issue (black) is available for 25¢ each plus a SASE. From: C C GTR N B, P O BOX 2991

To all our members who will not be able to attend our Baltimore affair, we wish you a good day and are sorry you could not make it.

We always need more workers, so get involved in your club. It has gained a lot due to the new member-ship wood issue and the national publicity that was given through the Associated Press release on our Editor Walter Scott.

Recieved word that our only regular member in Hawaii, Kazuma Oyama, under went a triple heart by-pass on May 13th. He reports feeling fine and plans a Las Vegas trip July 9/13th. Our 1st V.P. Tenino, Washington, now has the world's largest hand carved wooden nickle! It is the brainchild of "Kenneth Hedden" celebrating forty years in business at Heddens Pharmacy. It is in plain sight on Sussex street on the wall of Heddens Pharmacy. Sorry photo was to dark to copy. Hopefully another can be obtained.

Thanks to Jake Scott for sending the Tenino information.

Reva M. Kline IOWMC #1710 reported that Norm Boughton HLM 36 and his wife Maurina A1662 came to Camillus, NY. on May 19th, and that Norm, spoke to the Mismatic Coin Club on Wooden Money. The Hawaiian Bat

BY CHARLES MATSUDA

The bat has always been either a hero or sinister foe. During my youth I recall reading about them in the comics, watching them in the movies, and listening to stories on the radio. The most super hero would be "Batman" the Caped Crusader. I remember a serial of fifteen chapters that I watched at the Royal Theaters. In this serial Batman fought the Axis spies during World War II. I can never forget watching fourteen of them and missing (the fifteen) the last and most important chapter, being home with the mumps. Then there was that villain, that sinister figure called the Vampire Bat. He was always played by Bela Lugosi. In one of the movies it was so terrifying that after I saw the movie I covered my face with a blanket when I went to sleep at night for several days.

The Hawaiian Endangered Wildlife No. 12 features the Hawaiian Hoary Bat on the wooden token. Known as 'ope'ape'a, (meaning flutter wings) these bats can be found on Kauai, Maui, and on the Big Island. But due to progress and most of them spend the daytime hours resting, very few have been known to be seen. They become active in the late afternoon hours to after sunset foraging for insects. The Bats are reddish brown or grayish in color and have a wing span of about 12 inches or more.

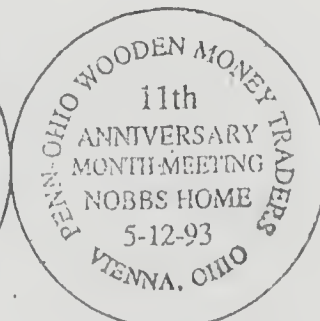

On the reverse of the wood is a Hawaiian flower called 'Ohi'a-ha, a flower that comes from a native forest tree with abundant red fruit. They look like red strawberry guavas from a distance. The fruit is not tasty, but it is edible. The leaves are dark green in color, oval shape and glossy on top.

To order the woods, please send a SASE and 50 cents per wood to: Honolulu Coin Club, P.O. Box 6063, Honolulu, Hawaii 96813. If your order is for more than one wood, please add extra postage so you will receive the wood, instead of it ending up at the dead letter file at the Post Office in San Francisco. Mahalo.

1st issue of CC & GTCC, one gold and one in silver with black print. The 6th annual for their 1993 Baltimore meeting is brn. obv. & lilac rev. The 3 woods are 75¢ each plus a 52¢ SASE if 2 or more. From: Janice O'Neal, 1836 Fisk Rd., Howell, MI 48843

A elongated cent, 3rd in a series, has the Great Seal of Waukesha County as the central feature of the design. 200 of the approximate 500 made, will be taken to Kokchetau (a State in the former USSR) and given away as friendship tokens by the city of Waukesha during a "Sister City" visit this year. A 1992 and a 1993 elongate is available for 50¢ each plus a SASE. From: Waukesha Coin Club, 1912 Laura Lane, Waukesha, WI 53186-2808 Other sets are available.

1993 11th Anniversary 11¢ wood for sale POWMT. 25¢ each or 5 for \$1.00 plus a SASE. From: Ron Nobbs Sr., 3924 Warren Sharon Rd., Vienna, OH 44473. Wood issued at POWMT's 133rd. meeting.

Tenino, Washington, Birthplace of legal Wooden Money, is now the home of the world's largest Wooden Nickel. This giant size wooden nickel, measuring 6 feet in diameter was hand carved by a local Tenino artist Jack Livingstone. It is constructed of 2" cedar laminated on a 3/4" sheet of marine plywood for strength and is permanently mounted on the wall of the new larger Hedden's Pharmacy in Tenino, Washington.

This is an outstanding carving and anyone visiting the Pacific Northwest should take the time to come to Tenino to see this giant nickel. While in Tenino, stop in our historical museum and see the display of the original Tenino Wooden Money and the press it was printed on and maybe even view the original movie showing it being issued.

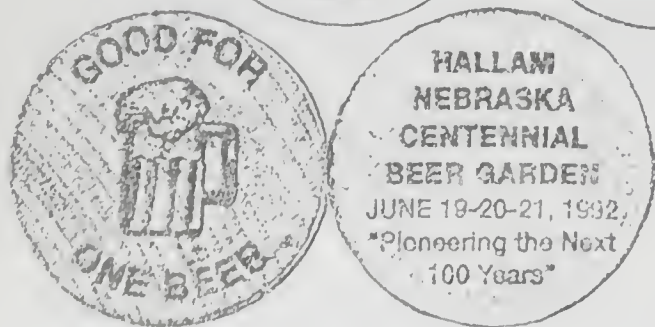

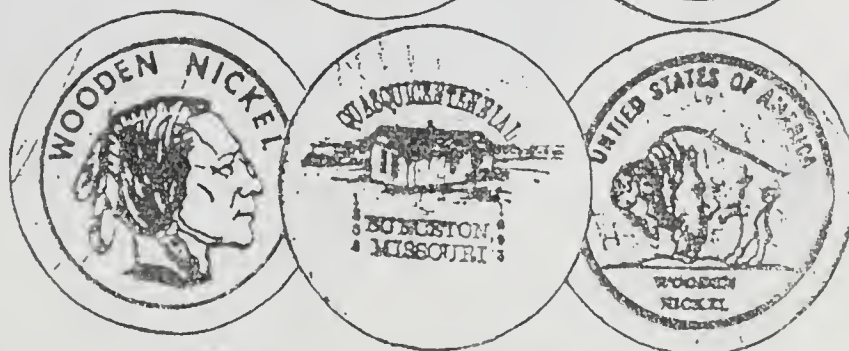

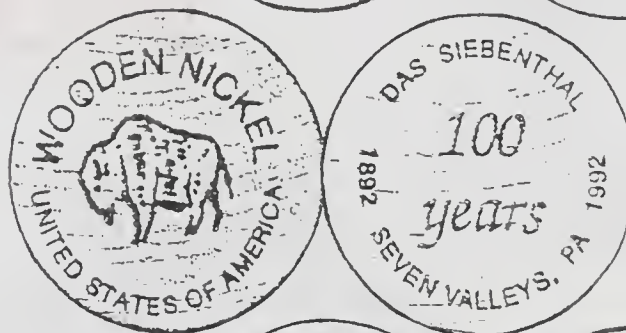

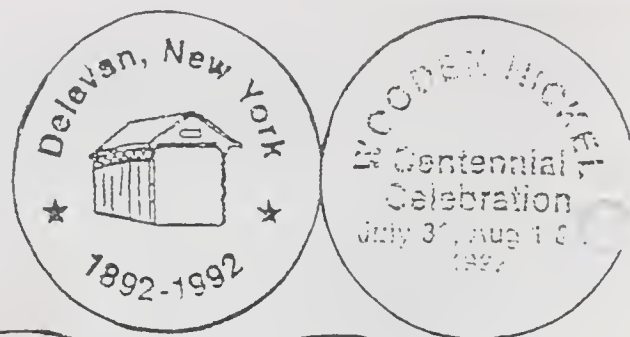

The previous world's record largest wooden nickel - according to an article published in the June 1991 issue of "Atlantic Tree Talk" -- measured 4 feet in diameter and belonged to the Atlantic Provinces Wooden Money Association. The only other large wooden nickel (size unknown) was used by Clarence Kramer (deceased) of Drums PA. he was known as the "King of Wooden Money" and used it on a float in parades.

Issuing a collector's wooden nickel is nothing new to the Heddens, who over the years have issued 175 different wooden nickel designs and estimate they have about 133,500 wooden nickels in circulation today.

A 2" size replica of this unique wooden nickel was handed out to all those in attendance at the unveiling. A limited number of these are available to collectors for \$1.00 plus a #10 business size SASE. also a souvenir Tenino wooden money postcard will be included. Write: Ken Hedden, P O BOX H, Tenino, WA 98589.

PRESIDENTS REPORT

Our annual meeting is over. It's now time to start a new year in IOWMC. Several things surfaced during our annual meeting held Saturday July 31st at the Baltimore, Maryland Convention Center.

We are in need of more members especially Junior Members to keep our club going for many years in the future.

Virginia Dennis wants relieved of the raffle and auction duties. Her and Wayne did a terrific job again this year. They have earned a break in the action. Your President (Denver C. Howard) will take care of the raffle and auction during 1993-1994. Don't wait untill two weeks before the annual meeting to submit donations. Start sending them now especially items that can be sold at auction. These programs are what keeps our CLUB going. Our dues only pay a small part of our expenses.

If your town is having some type of celebration, Centennial, County Fair, Canal Days, etc. go to those leaders and encourage them to issue woods for their celebration as it lets the whole country and world know it exist. Your Editor, Walter Scott, has listed in this newsletter issue some companies that can be contacted. Be sure and have them tell that company IOWMC sent them.

Norm Boughton and Robbin Quinn are pursuing the idea of a regional meeting as an experiment. More will follow. I'm really excited about Robbin's and Morm's idea. If successful we will explore the idea of planning more regional meetings. These meetings would be planned in conjunction with another coin club meeting and show. It will give some of our members a chance to attend a meeting close to their home. It is really an enjoyable experience to meet some of your club's unknown members. Keep those cards and letters coming.

Denver C. Howard -- President

PAST PRESIDENTS REPORT

I want to thank all the officers and members who worked for the club and helped build our membership to a all time high. Continue to do so for all the new officers. They will need all the help they can get to help make our hobby even more active and popular for years to come. Jobs such as curator, membership, awards, raffle, items for Bunyan's Chips and any other YOU or our new President feels will improve our hobby. Portraits of YOU - NEW OR OLD members help us all to know each other better.

My 2 year term ended with a social gathering and luncheon attended by 23 members that gave them a good chance to talk, swap woods, sell and to take a part in a active auction. It appeared that it was well enjoyed by all.

Thanks Again - Good Luck and Good Pickings
E. Ted Wolverton

Sincerely submitted
Walter Scott - Editor

Editor's REPORT - Regret that Bunyan' Chips has been published late for some
 years and can only hope I can do better. Decemblers issue will end 10 years &
 one can only wish some-one would step up to accept the task. A club bulletin
 is the backbone of any club, but at times it becomes hard if little material
 is on hand. Some have been very helpful as send material often as Florence
 Rebello (C C of GTR N B), Kazuma Oyama, Jerry Remick, our secretary, and other
 officers. Tops on new issues is Ken Paulsen and Norm Boughton has sent the
 mailing labels to mail chips at his own cost. A editor appreciates all the
 material sent Portraits, Wood issues that about all include woods for copy,
 and any suggestions etc. from any of YOU. THANKS TO YOU ALL. One can not re-
 member all that deserves a Thank-You but it is all appreciated by me.

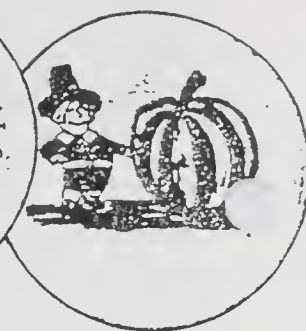

Regret not getting to take much time to really enjoy all the wood meetings
 yet lucky they were close enough to home, as my Mother 94 yrs old passed away
 on July 27th which was very saddening as rarely missed a day for years of see-
 ing her each day in a nursing home.

Remembering my Scouting days On My Honor, I will do my best. Scotty

'Don't take wooden nickels!' Some hobbyists ignore adage

Two hobbyists look over their display of wooden coins ...they are Clinton List, right, and John Lawrence, of West Haverstraw

Journal photo by Robert V. Niles

Since then, wooden money has been used as commemorative money to mark an anniversary or the opening of a store.

Sambo's Restaurants once had a campaign where every store in the chain distributed a different wooden coin.

"The whole set is valuable now," Clinton List said. List, a Staten Island resident, is on the board of the New York State Wooden Money Society. Lawrence is the secretary of the organization. The club was formed in 1977.

The Boy Scouts have issued wooden coins. Lawrence's collection of Boy Scout coins has been on display in area banks.

Like real money, the value of wooden coins depend on how many were originally made.

Lawrence said his most valuable wooden coin is worth about \$25. It is a commemorative coin which marks the centennial of Gowanda, N.Y.

Lawrence also has a replica of a check for \$30,000 which was made out on a sheet of wood.

Any kind of wood can be used for coins, according to Stewart. Pine, oak and balsam are commonly used woods.

The club members issue wooden nickels on special holidays such as an anniversary or birthday.

"My wife thinks I'm crazy," List said. "But woods are my love."

From page 1E
...wooden

People have told John Lawrence not to take any wooden nickels — but he doesn't listen.

The West Haverstraw resident says he has more than 15,000 pieces of wooden money. Most of the collection was on display Saturday during a coin and stamp show at the Mid-Hudson Civic Center.

But why would 150 people in New York state and 2,000 people in the country bother collecting wooden nickels which are generally considered the standard for worthless?

"Because it's too expensive to collect coins," Lawrence said. "I'll collect just about anything, regular coins, just about anything."

Lawrence said, "I'll collect anything from soup to nuts," he added.

The hobby may seem less than serious to a novice, but wooden coin collecting has become as involved as numismatics (the study of metal coins).

In fact, Lawrence said the collecting of wooden coins is now recognized as the art of lignadematist, which in Latin means wooden money.

There is even a trade price guide and manual which lists the different series of wooden coins and their worth. The book is in its seventh printing.

Wooden money can be traced back to the Byzantine Empire, around 395 to 1435 A.D., according to Lawrence.

But the wooden nickel was about as popular then as it is

now. "They didn't catch on," Lawrence said. And he believes that the term, don't take any wooden nickels, goes back as far as the coins themselves.

KENNETH HEDDEN
IOWMC # 1319
TENINO, WASHINGTON

Pictured is Ken not designing or working on woods but inserting a new battery in a watch for one of his treasured customers.

Ken was born in and raised in Tacoma WA. received a degree from the University of Washington and married his wife Barbara in 1951 he worked briefly in Eastern Oregon before completing a two year stint as a Pharmacist in Palmer, Alaska from 1951 to 1953.

When returning to WA. Ken and Barbara started looking for a place to go into their own business and to raise a family. They looked in 4 or 5 locations before finding the ideal spot in Tenino, WA. Hedden's thought the spot found would be a good location, with room for growth. In Tenino they found a future that included plenty of growth both in the terms of family and business.

They had five children Shirley, Dale, Brian, Janet, and Carol. Shirley and Brian both work in the Pharmacy after graduating with Pharmaceutical credentials from guess where, of course! the University of WA. in 1975 and 1982, they also help manage and stock other areas of the store. Janet works at the store full time as manager of the Radio Shack franchise added with a remodeling of the store in 1991. Dale, while not a day to day participant in the store, is close by working as a Certified Public Accountant and plays a role in the business book-keeping. The youngest Carol, currently a legal secretary in MN., but her & husband are in the process of relocating back to the Tenino area. When Carol drops by, for sure a space in the business will be found for her.

Ken and Barbara probley never visioned that they'd have such a ten-fold growing business with their children involved after 40 years. What started off with 700 sq. ft. in a 14' by 50' store front growing to 7200 sq. ft. store. There was a move to the current location doubling in size in 1956, a remodeling in 1977 doubling the size and in 1991 remodeling again doubling the size to 72' X 120'.

Ken and Barbara envied Tenino being the home of the only official U. S. user of Wooden Money and have issued many series of woods commorating special occasions of their lives. (continued next page)

(continued from 1st page)

These include family events, flowers, holidays and many other items totaling 175 different issues. This project now includes one of a kind of the worlds largest Wooden Nickel attached to their store that helped commemorate the 40th anniversary of their business in Tenino.

Hedden's tradition is etched in a sandstone replica of a drugger mug and crusher tool along with other sandstone carvings. Sandstone -- has played a big part in Tenino's industry.

They have now reached the "Golden Years" hoping to semi-retire which will be hard to do after all the years of service to their customers and community, Ken had also served terms as Mayor of Tenino. It is Great to know any family that stays together in this time and age, Lets all hope they can full-fill their desire to see all of the United States. Surely we will find more issues of woods in the future.

1st. Vice President Bonesio's Convention Remarks

As many know my health has not been that great of late, but I did put everything on hold for the last few months. I tried hard to stay well enough to make the 102nd. A.N.A. at Baltimore, MD. which I did get to do.

With talking with all types of collectors and dealers that had booths on the bourse floor floor and most agreed that it was one of the best A.N.A.s in years. This was my thought also. I had a great time talking and visiting with old friends and enjoyed the Baltimore water front. My hotel was tops and had a room with a great view of the dock with the boats.

I had more time this year to spend on the floor and visit with the dealers and all my friends from the foreign mints. I had a want list of ten coins and dickered here and there and picked up my ten items, as well as five more.

I got to attend several club annual meetings and some board of governor meetings, with some high and low points.

I thought that the A.N.A. banquet was so much better than the one at Orlando, I enjoyed the folks at the table. There were two officials from the Smithonian and their wives and a surprise to find a couple of old friends from years ago that I had met from North Carolina.. And three folks from the Large Cent Coin Club.

AS I am one for getting youngsters into collecting I talked about not dropping the cent, along with tokens, elongates, medals and wood it would keep the cost low for the JRS. And we sure can use young blood to come up in the collecting hobby.

I had a good man that drove my car and help me with things at the convention, a good trip too and from with no traveling problems.

I had put off a few things pre-convention and promised myself when I got home would get them done. So as soon as I could make arrangements I put myself in the hospital. Lots of test and medications. Out now and feel better as to breathing but would have liked to have stayed longer. This was for heart and lungs (fluid), but did nothing for hands and legs. Since getting out I have had a lot of things to catch up with. Looking forward to next year to meet and again see and visit with all the wood and other hobby collectors.

Enjoy Good Health and Collecting - Al

BRIEF HISTORY OF IOWMC

The International Organization of Wooden Money Collectors held their first meeting at the ANA Convention in Cleveland, Ohio on Aug. 20, 1964. On August 26, 1965, the official club name was approved and so was the name of Bunyan's Chips for the clubs official news letter. Several charter members are still with the club.

IOWMC sponsored the first all wooden money show and convention in Columbus, Ohio on August 2, 3 & 4th, 1974. There has never been another all wooden money show and convention in the United States.

The membership is exploring the opportunity of celebrating their 30th Anniversary with another all wooden money show and convention.

HOW TO COLLECT WOODEN MONEY

There are several ways to collect wooden money. Official woods are defined as those issued by some government authority, usually for some civic celebration. Semi-official woods are also issued for some civic celebration but are issued by businesses or individual for profit or civic pride. They come in both flat and round varieties. Other ways of collecting are by business or industry such as collecting pharmacy wood; civic and fraternal organizations such as Rotary clubs, VFW or Lions clubs; Coin clubs or personal woods such as Christmas.

Whatever you decide to collect, you will be collecting the only money that grows on trees.

SCOOP LEWRY

It is rare to use a member whom has departed this life, but feel this one merits a final item.

The response from the associated Press item brought a response that contained close to 100 pages of material on Moose Jaw, Canada, "Scoop" Lewry, Moose Jaws-biggest booster, and information on a new Centre in the Park project.

Many IOWMC members remember his ventures into many hobbies that included a number of wood issues and some he had helped to co-promote with his friends. Lets hope a complete listing will be made. After his passing some of his issues were used for fund raising projects at \$1.00 each.

L.H. Scoop Lewry was one of a kind, he was born in Moose Jaw on April 16, 1919 and in 1938 was a reporter for radio CHAB and for the Leader-Post and Winnipeg Tribune. Married Jean Munro who died in 1986. In 1948 was elected to City Council, in 1949 elected Mayor of Moose Jaw serving six one year terms. In 1957 elected CCF member of Parliament for Moose Jaw-Lake Centre. Served as Mayor 1964-1970, Awarded the Order of Canada in 1980, Served as Mayor 1982-1988. Married Edith Hill in 1987 but divorced in 1991. In 1992 announced intentions to run in Civic by election, died of heart failure Feb. 24, 1992. His death leaves behind a legacy of friends. It didn't mater if you were rich or penniless as gave everyone consideration.

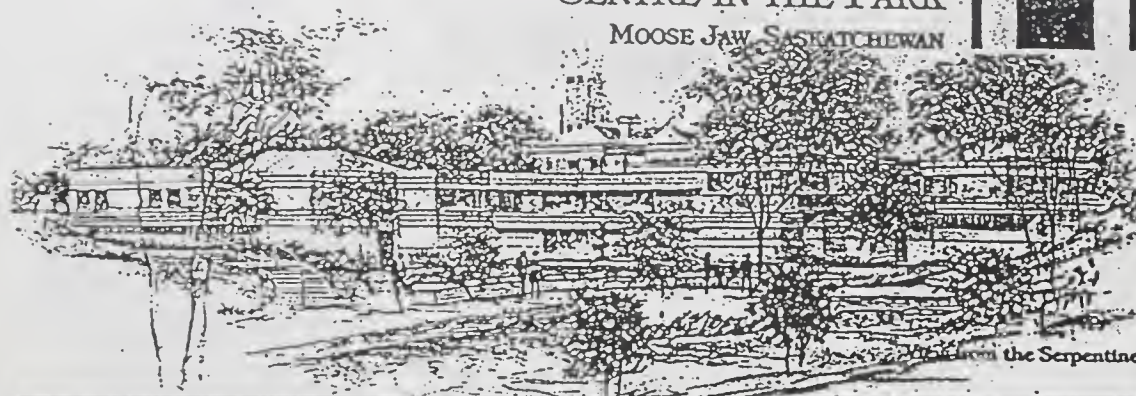

Scoops involvement in woods started when he was secretary-treasurer of the Canadian Large Cent Club in its six years of operation in Moose Jaw. Promoted Coin Week Canada and National Coin Week.

The first ANA and IOWMC meeting he attended was in New Orleans and our last meeting was in Atlanta Georgia Mayme and I remember his last conversation including his health as had battled cancer for many years. Shortly before he'd totaled his car and said that the "Good Lord" was looking over him as his son and lady friend suffered no injury. He told of his project to build the worlds largest Moose at the entrance to the city of Moose Jaw, which was achieved.

Most all his woods were 1000 per issue but the issue commemorates his receiving the Order of Canada in 1980 totaled 2,500. Another wood he helped promote was one distributed by the Moose Jaw City Police - Work Together - To Prevent Crime, a 10,000 issue.

One Columnist ended his item with "So long Scoop. and, hey, don't take any wooden nickels now, you hear? (continued next page)

FOUNDATION FOR
CENTRE IN THE PARK
MOOSE JAW, SASKATCHEWAN

(Continued)

Others always in some way or other help to fill ones shoes, so a "PENNY PROJECT" was started by: Ernie Penney - Chairman to collect pennies for the Centre in the Park Foundation that was founded in January 91. The funds being raised help to build larger space to the Moose Jaw

Art Museum/National Exhibit Centre, Public Library, Performing Arts Theater, Children's area, Audio-Visual, etc. The project estimated cost is \$6,981,600. Ernie has traveled to many places to promote the project through talk shows and publicity in numerous publications and news papers.

One California lady learned of the Penny Project and mailed 100 pennies that cost her \$5.00 to mail - what a grateful gesture yet such a loss. Hopefully some of our IOWMC members will collect pennies but redeem them and send by cash or check as a memoriam to one of our deceased members.

Mail to: Centre in the Park, 461 Langdon Crescent, Moose Jaw, S6H 0X6 Canada. Mention "Scopp" Lewry and I.O.W.M.C.

** THE "STATUE OF LIBERTY" COLLECTORS' CLUB **

Vol. 2 # 3 Spring & Summer 1993 issue carried two items relating to Woods in their collections. Editor's notes.

1 was from Julius Turoff - "Your Wood plaque of the Statue of Liberty from Lord and Taylor was made in 1886 for the opening of the Statue. They also made one for the Brooklyn Bridge in 1883, The process of wood medals started in 1876 for the centennial and continued up to the Columbian Expo in 1893. Dealers value them at \$75.00." A thanks Julius, and I got a real bargain when I paid \$18.00!

2 Norm Boughton, from Rochester, NY, writes, "I was President of the I.O.W.M.C. during the anniversary of the Statue. The Club makes a wooden dollar for each President with a theme of what is happening that year, or where the meeting is held. Mine has the Statue of Liberty on it." Norm then added that "in cleaning up and having found some of these wooden dollars, I am taking the liberty of sending them to you to distribute as you see fit"- The wooden dollar is a very nicely printed piece and will be used to raise money for special projects fund at the S. & L. Thanks Norm, for being such a nice guy!

Walter Scott loves making the newsletter,
He'll try and make it better;
If only he could receive a letter,
That way he can make it better,

Then we all can stand and shout,
We'll have the best that's out;
We'll tell what IOWMC is all about,
That way we can stand and shout.

The newsletter is truly fun,
Let's all try and see that it gets done;
Because the IOWMC is next to none,
We're the best that's under the sun.

Denver C. Howard

Presidents Message

The first wooden money I recall ever seeing was at my very young age. My dad had taken me to Jefferson City, Missouri to visit his brother. The wooden piece was some kind of a sales tax receipt. I don't have it anymore that was sometime in 1937.

The second wooden nickel was received at a bowling tournament in Cincinnati, Ohio. I have that one with several others It was from the Western Bowl Restaurant at the bowling lanes.

I got interested in collecting when an employee at the Filtration Plant gave me a copy of Coin World. Noting a set advertised in this paper, I sent for it and I was hooked. Now realize if I'd entered the hobby when traveling through many states when working as a Minor League Umpire I'd sure would have accumulated a far larger collection.

We would be interested in stories on how our club members received their first wooden money. These stories would be interesting. Let us know your story. While at it, why not writing about your self and if possible sending along a picture, that a portrait can be used on Chips cover page. Past President Norm Boughton reports he is assembling all the Portraits of our clubs 30 years for a book. Portraits submitted before July 1994 will be included in it. It will make a great collectible item.

The machinery has been rolling for plans on a district meeting be held in Ohio in 1994 to commemorate our 1st meeting that was held in Cincinnati, Ohio in 1964 and our 10th anniversary All Wood Event in 1974.

It is always sad to learn of the loss of our members or their loved ones. The older our club gets we also gain in age. A number of our members also have health problems. Our cards and notes help ease the pain.

*** KEEP YOUR CARDS AND LETTERS COMING ***

Denver C. Howard = President IOWMC

On behalf of the officers and members of the Token and Medal Society, I would like to Thank the I.O.W.M.C. for their continued support of the TAMS Library. We very much appreciate receiving the issues of "Bunyan's Chips".

I know it is one of the most popular newsletters amongst TAMS members, as I regularly get requests to borrow backissues.

It is the support of organizations like IOWMC that keeps the Token and Medal Society going strong. If there is ever anything that the TAMS Library can do IOWMC members, please let me know.

Sincerely, Peter Irion - TAMS Librarian

CATALOGING CLUBS EXONUMIA

Some years ago the late Byron Johnson began a cataloging effort to list all the club medals, wooden nickels and other similar material. I know that since that time, many clubs have issued items which are collectible. I personally am a collector of Washington wooden nickels from various clubs but do not have a complete list of items issued. Bob Lieberman of Spokane, published a book about Washington State issued woods which is as complete as I have seen. still there is new material showing up that is not listed. I would like to take up where Byron Johnson left off. I am asking for help from anyone whom has been long time collectors of the Washington Coin Club items to please send me a listing of their medals, wooden nickels or other exonumia which has been issued. As a feature of Pacific Northwest Numismatic Association newsletter, I will begin to list the club and the items that were issued. I am also interested in any item which have been issued by the various cities and towns around the state. these can be Chamber of Commerce, Municipal, County or organizational medals and wooden nickels. I have sponges which when wetted will expand to show the printing in large letters.

All information shall be held in the strictest confidence if that is your choosing. If you have any questions I can be reached most any time during the day and evening at 206-244-1596. Mailing address is; Delmer Cushing, P O BOX 88984, Seattle, WA. 98138-2984. It is my wish that collectors out there will give generously of there knowledge or will encourage those who have collections to write or call me regarding this endeavor. **THANK YOU**

"THE SAMBO TALE"

By: Barbara Trace

June is bustin' out all over - and so are Sambo Resturant and "Sambo" collectors.

The wooden advertising chips that are given out by these resturants, have captured the fancy of some of our oldest collectors of wooden money. It is a real challenge to get a piece from each location and lined up in 2 X 2's they make a fascinating display.

When the first Sambo Pancake House opened in June of 1957, in Santa Barbara, California the wives and families pitched in as waitresses and cooks. At the close of their first year this Pancake House did a \$90,000. business. They decided to branch out and by 1960, they owned six of these pancake houses. By 1964, the number had grown to thirty two. In 1968 there were eighty. In October of 1969, the Sambo chain of resturants celebrated the 100th opening in Coleta, CA. and by this time had grown into an almost a thirty million dollar enterprize.

The Pancake houses are now called restaurants. Many additional items have been added to the menus and all opening in more recent years, are well appointed rooms. All of the Sambo Resturants are operated on owner-operator-manager basis. With this personal interest in each and every Sambo Restaurant, a location has never closed, which is most remarkable in the business world.

These wooden chips do travel around and are affectionally known as "Sambow" among us collectors. They are honored coast to coast for free coffee. When requested by a diner, the manager will give a few of these pieces to a customer, with the location name on the chips. Collectors treasure them. Others turn in for coffee at other Sambo Restaurants. It would have to be an almost impossible "broke" day before I would trade a "Sambo" for a cup of coffee.

Because of the close proximity to Palm Springs, CA. and Las Vegas, NV. like thousands of other Californians, I visit these famous resort cities at every opportunity. While in Palm Springs recently, I stopped at Sambo's "Palm Springs South" Restaurant. Met Mrs. Milton Hughes, the wife of the manager and we discussed items of interest. I asked Mrs. Hughes if we collectors of "Sambo's" sometime became a little problem because of our request and she promptly answered NO. Yes, I

Due to the continued interest in collecting SAMBO's Chips reprinting the 1st item published in Chips June 1970 issue seems appropriate. Even businesses tend to fail due to errors The Associate Press item brought 2 responses from Sambo's delivery truck drivers. It was reported a false advertizement lawsuit that destroyed the chain, not caused by the name Sambo. It will never be known how many were chopped up for mulch by Boy Scouts as a fund raiser. Many Sambos not naming a city of origin are of little value, so keep hunting for the ones that state where issued. Thanks to Morm Boughton for sending copy for use. PAGE # 56

had some new varieties to add to my collection and to share with friends upon leaving. When in the fabulous city of Las Vegas, NV. I always made a point to visit the three locations there. The Las Vegas chips carry the colorful names of Strip, Lotus and Bonanza. It was here that I found chips from near and far. They were brought in by vacationers and turned in for coffee. It was also interesting to learn that the "Sambo" chips are packed in boxes of two thousand to be sent to each location. We collectors have just a fraction of these chips and the remainder is absorbed by the public.

I have been asked how and why the name of Sambo was chosen. After a little investigation I learned it was the combination of the names of the two founders, Sam Battistone and F.N. Bohnett. They combined their name, Sam and Bohnett to come up with the story book character of Sambo for their first small venture. Many of us have read the classic Tale of Sambo and his pet Tiger. The walls of the restaurants are lined with amusing fairyland picture-stories of these two lovable fairy-tale charactors.

Little did this restaurant chain dream of what a loyal following of goodwill ambassadors they would acquire when they started to issue their chips. It is not at all unusual for "Sambo" collectors to drive fifty or a hundred miles to a Sambos Restaurant, to dine and meet the manager personally and of course to obtain a few "Sambos" to add to our ever increasing pages of 2 X 2's.

Many of the restaurants are located in CA. but collectors in distant states have completed or almost completed collections because of our net work of letter writing and trading. Complete that is, as of today. For tomorrow we may hear of another or two restaurants opening and off we go again on the happy hunt.

To my Knowledge, as of May 1st, there are one hundred and twenty two restaurants open and at least fifteen more under construction. By the end of this year, Sambo's expect to be two hundred strong with a Sambo in all states.

We collectors of "Sambos" are truly collecting pieces of a real American success story. It could happen here only. From a shoe string start that grew into thirty million dollars in twelve short years. And - it all started with a pancake. * Signed - Barbara Trace HLM-9**

William John Theodore Kennedy dreamed of coming to Washington State in the 30's. In 1940 he squeezed his wife, 5 children, the family dog, and all their possessions into a tired Model A Ford and left on a trip they all will talk about.

Wm (Jack or Red as most knew him by) died on Sunday October 10th at the Harborview Hospital in Seattle at the age of 87.

Jack never regretted the decision he made to come to Washington and to the end was interested in the changes and growth of the Kitsap County area.

Wm, one of 8 children born to Charles and Nettie Kennedy, was born Dec. 4th, 1905 in Alma, Kansas. He finished grade school and went to work as a painter apprentice in the Santa Fe Railroad shop in Topeka, Kansas.

In 1923 he married the apple of his eye, Florence Mix. They had 5 children Wm. John Theodore Jr.(Bud) of Belfair, Robert, Peggy Turner, Patricia Barich of Bremerton and Sue Tompson of Chimacum.

Luck was with Jack and his family all the way on their trip and in late 1940 they arrived in Bremerton. In 1941 he got a job as a painter at Puget Sound Navel Shipyard where he worked for 31 years. He hacked a home place out of what was then very wooded country and one year later his family was living there.

Jack was interested in everything. He enjoyed gardening. He liked collecting things and had a sizable collection of wooden nickels, 1 cent checks, and key chains. He belonged to many wooden money clubs.

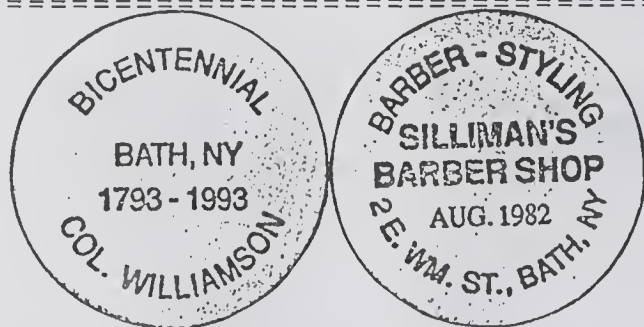

Jack never forgot, nor let his children forget their heritage and they all are on the Potawatomi Indian Tribal rolls.

He and Florence would have celebrated their 70th wedding anniversary on October 17th. They were sweethearts to the end.

Besides his wife, residing at the family home, and his children, he is survived by a sister, Blanche Jackson of Pearl River, NY., 21 grandchildren, 5 great grandchildren, 3 great great grandchildren and several nieces and nephews.

Funeral services were held on Friday, Oct. 15th at the Lewis Funeral Chapel followed by a short graveside service. Memorials may be sent to the Alzheimers Foundation.

Most all us woodies will miss the many nice notes, cards and their 2" round Christmas Greeting wood issue. We all send our Sincere Sympathy to all of the Kennedy family.

ISSUE # 11

One response on the wood item run by the Associated Press was from Cirino G. Scavone of Palmer, Alaska. He sent a box containing woods, and tokens for my collection. He had lived in Arizona and a past president of the Tucson Coin Club and had worked for the Valley National Bank.

The box contained a set of 15 woods that would have been considered madericks had his note not explained them. They had been made to promote a 1970 employee contest. Each area had a different symbol and the obverse had the motto printed under a Indian head "ABAHOOOSA" that stands for "A Billion And A Half On Our Seventieth Anniversary". The goal was to have that much on deposit by December 31, 1970. These woods were a deposit gaining program for employee's

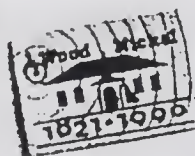

A few extra pieces have been sent to our Junior members that probably considered them madericks -- Now they know --

The different issues for the divisions are reduced 65% to be shown and are as listed -- (1) Sunrisers (2) City Slickers (3) Mets (4) Sundowners (The Metro Div's Phoenix) (5) Homesteaders (Home Office) (6) Pueblos (7) Dudes (Tucson area) (8) Snowbirds (9) Miners (10) Mavericks (Arizona Division's) (11) Sharks (Consumer lending div.) (12) Astros (Data Service div.) (13) Monkey Wrenchers (Operation Service div.) (14) Braves (Personal Management Ser.) (15) Chiefs (Headquarters & Staff)

This set is rated as a private issue. No recollections of it ever being publisher by the Arizona Wooden Money Guild.

Plea for penny project in worldwide publication

The Penny Project may have reached its objective of one million pennies, but the pennies are still coming in.

In fact, 24,000 have come in since the closing date in October.

News of the project recently appeared on front pages of Bunyan's Chips, a publication of the International Organization of Wooden Money Collectors out of Elkton, Maryland. The paper is distributed worldwide.

The late Scoop Lewry, long-time mayor and promoter of Moose Jaw, belonged to the organization and sat on the executive. When Walter Scott, president of the organization, heard about the Penny Project, he wrote an article asking members to collect pennies for Centre in the Park in memory of Lewry.

In the front page article, Scott talks about Lewry's involvement with the organization.

"Lewry was the secretary/treasurer of the Canadian Large Cent Club in its six years of operation in Moose Jaw, that's where his interest in 'woods' started. He attended his first convention in New Orleans and his last one in Atlanta, Georgia."

Scott asks members to collect pennies and redeem them for cash or cheque and send them in memory of one of their deceased members.

The foundation is also selling wooden nickels that were donated by Edith Hill from Scoop Lewry's collection. Proceeds go to the foundation. Call the office at 693-7275 for more information about what nickels are for sale.

HAWAIIAN ENDANGERED WILDLIFE # 13

The wood is issued in conjunction with the 30th annual coin show of the Hawaii State Numismatic Association features the Koloa Maoli (Hawaiian Duck) on the obverse and the Lilikoi (Passion fruit) on the reverse. The wooden token is printed in green.

Also known as the Hawaiian Duck the Koloa Maoli's wild population included all main islands of Hawaii except Lanai. The wild population is still widespread on the island of Kauai. Breeding birds reared in captivity have been re-established on the islands of

Oahu and Hawaii. Some authorities treat the Koloa as a island race of the Mallard.

A member of the passion flower (passiflora) family of vines, the origin of its Hawaiian name is from Lilikoi gulch on the island of Maui where the seeds were first planted. The flowers are blue and white. There are many species of passiflora native to central America, Asia, the South Pacific islands, Australia and Madagascar. The one grown in Hawaii and known as Lilikoi bears yellow round or oblong fruits whose fragrant and tart juice is prized for fruit drinks and flavoring. A bakery on the island of Kauai is famous for their Lilikoi pies.

According to Marie C. Neal's "In the Gardens of Hawaii" (Bishop Museum Press) the "Passion Flower" was so named by early European travelers in Central "tropical" America because it suggested to them the passion or the suffering of Christ: the ten equal sepals and pedals represented the ten Apostles at the Crucifixion, the fringed crown represented the crown of thorns or halo; the five stamens the five wounds; the three styles the three nails; the tendrils the cords or scourges, the leaves the hands of the persecutors. The white color symbolized purity; the blue, heaven.

The wood token is available for 50¢ each plus a S.A.S.E. with appropriate postage from: Honolulu Coin Club, P O BOX 6063, Honolulu, HI. 96818

Would You Believe?
IT HAPPENED IN WILLIAMS COUNTY—

THE \$35,000 TREE OF 1976

THE MOST EXPENSIVE WALNUT TREE EVER CUT IN THE UNITED STATES WAS FELLED ON NOV. 3 1976— THE TREE WAS 130 FEET TALL, WITH THE TRUNK LOG MEASURING 57 FEET IN LENGTH WITHOUT A BLEMISH— THE DIAMETER, 4½ FEET UP WAS 38.4 INCHES. THE SMALL DIAMETER WAS 27 INCHES.

THE TREE WAS AT LEAST 150 YRS. OLD GROWING IN A WOODS OF VIRGIN TIMBER NEAR NETTLE LAKE.

PURCHASED BY THE ATLANTIC VENEER CORPORATION, SPECIAL PERMISSION HAD TO BE OBTAINED TO HAUL IT ON A FLATBED TRUCK TO THE SHIPPING POINT WATERLOO, INDIANA— THE FLATBED BEING 36 FEET LONG, GAVE THE LOAD A 21 FOOT OVERHANG— AFTER BEING LOADED ON THE PENN CENTRAL IT WAS SHIPPED TO THE COMPANY PLANT IN NORTH CAROLINA.

SPECIAL THANKS TO THE OHIO MAGAZINE

WOOD INFORMATION - This month I am writing about flea market and Coin Show wood assortments or so called junk woods. Over the last few years I have been seeing more and more of this type of woods on dealers tables. Most of the dealers that buy these to sell don't know good wood issues from bad wood issues. They buy them because they are cheap and hope to make out good on them, I can tell very soon as many old wood collectors that they are not of any value in our collection. If they are junk woods I tell the dealer to not buy this kind of woods and why. I tell them, if they get state assortments woods with town and states on them, they will sell fast, because the collector knows the difference. Most dealers will thank me for the information and some have better woods on their tables when I see them again! You young and new wood collectors may not understand runs, reject error, maverick type of wood, ink smears, wrong Indian or buffalo backs and the wrong color ink for that issue. You can pick out good woods from them, if you know what is correct and what is wrong on the woods. But it takes time to learn and till you do be careful what woods you buy, if you want correct woods in your collection. The main wood to stay away from is reject errors. Reject errors are woods with 2 or 3 different woods printed on one wood. Like one side is for one wood and the other side is for another. So check both sides of woods, if you go through woods to buy and you will learn as I have over the years. I hope this is a help to some of you! If you have questions on woods, send them to me and I will answer you the best I can. This is all part of learning more about our fine hobby!! This item was used from the POWMC newsletter as has been a concern to myself as a long known issue. Recently a new member from the goodness of his heart sent a few woods to be sold for the club. It was hard to write a note back to him that they were not good issues. At one time the purchase of a 50 state issue only turned up 2 or 3 considered OK. Our mail Bid chairman knows woods and pulls them out of lots in order not to mislead members. Juniors remember if requested Clint List will send woods for only postage. In some later issue, will show a few as a example of mavericks. Editor.

I'll be happy to trade one of our Christmas woods for one from other members. Paul Johnson, P O BOX 64556, Unionville, Ontario, L3R -0M9, Canada.
